

Knowledge Base: knowledge-base-SWArchReview-POC-quick-start-hclvc was failed to create.

- Step 1  
Provide Knowledge Base details
- Step 2  
Configure data source
- Step 3  
Configure data storage and processing
- Step 4  
**Review and create**

### Review and create

### Step 1: Provide details

Knowledge Base details		
<b>Knowledge Base name</b> knowledge-base-SWArchReview-POC-quick-start-hclvc	<b>Knowledge Base description</b> —	<b>Service role</b> AmazonBedrockExecutionRoleForKnowledgeBase_hclvc
<b>Knowledge base type</b> Knowledge base use vector store	<b>Data source type</b> Amazon S3	<b>Log Deliveries</b> arn:aws:s3:::porsche-compliance-log-714551764977-eu-west-1  /aws/vendedlogs/bedrock/knowledge-base/APPLICATION_LOGS/\${resourceId}

## Step 2: Configure data source

Data source: knowledge-base-SWArchReview-POC-quick-start-l8i7p-data-source		
<b>Data source name</b> knowledge-base-SWArchReview-POC-quick-start-l8i7p-data-source	<b>Customer-managed KMS Key for S3</b> -	<b>Parsing strategy</b> DEFAULT
<b>Account ID</b> 714551764977 (this account)	<b>KMS key for transient data storage</b> -	<b>Lambda function</b> -
store		
<a href="#">s3://porsche-compliance-log-714551764977-eu-west-1</a> 	Default	-  <b>Data deletion policy</b> DELETE

### Step 3: Configure data storage and processing

Embeddings model

Model

Titan Text Embeddings v2

Embedding type

Float vector embeddings

Vector dimensions

1024

Vector store

Quick create vector store - *recommended*

Amazon OpenSearch Serverless

Multimodal storage destination

S3 URI
